

JUDGE WISE ALTERS JUST ONE DECISION

Writes Name On Warrant Then
Scratches It Off and De-
clines To Sign

(Mail Special to The Advertiser.)
HILLO, November 20.—Although Judge W. S. Wise signed his name to a warrant for the arrest of Roger James, negro foreman at Waipio quarry for the American Surety Company, on a charge of assault made by Allan Marshall through Attorney J. W. Russell, last Wednesday, he scratched his signature out again and ordered that the warrant be secured from the magistrate of the district court at Paauilo, which is nearer the scene of the alleged assault on Marshall.

Apparently no other warrant for the arrest of James has been applied for. As a matter of fact the lease on the Waipio quarry to George E. Marshall, former contractor for the breakwater, was cancelled by J. W. Waldron, of the Pacific Mill Company, on November 1, on which day the notice was served on Mr. Marshall. Later the same day the quarry was leased to the American Surety Company through Vice-President Richard Deming.

A week later Allan Marshall, with some companions, visited Waipio quarry to protect certain property belonging to his father from being used by the American Surety Company. Mr. Deming telephoned to his foreman to protect the property of the company from trespass by Marshall. He did so by putting Marshall out of one of the buildings which the company claims belongs to it.

Last Thursday Deputy High Sheriff Pat Gleason arrived from Honolulu and after an investigation appointed Thomas Rickard as custodian of the attached property at Waipio. He stated that he would name a caretaker who was not connected with either side in the controversy.

MAUI IS READY TO WELCOME HER GUESTS

Great preparations are being made by Maui citizens to entertain visitors giving Day. Daniel H. Case, of Waialua, has made a special trip to Honolulu as ambassador plenipotentiary to extend Maui's greetings to Oahu and bid all welcome.

The particular business that brought Mr. Case to the metropolis was to charter a fleet of steamers, if necessary. However, this will not be necessary, because the Mauna Loa, Mauna Kea, Mauna Kea and Mauna Kea are all going to make trips in the usual course of events, and will not have preferences over the others.

For the accommodation of the returning visitors, the Mauna Loa, Mauna Kea and Mauna Kea will land passengers back in Honolulu Saturday and Sunday. The Mauna Loa is now on the Claudine run.

Best Hotels in Hawaii
As to hotels, Waialua can take care of 250 visitors without asking anyone to sleep in the bathhouse or on the billiard tables, and as many more in private homes. In fact, Mr. Case said, Maui can take care of a big crowd comfortably.

The Grand Hotel is complete as to furniture and fixtures, although some of the windows have not arrived, but everybody sleeps with their windows ajar in Waialua and there are no mosquitoes, except an occasional specimen brought on board the steamers from Honolulu. Anyway, the Grand will be ready for guests during fair week. The Governor will be there, and many distinguished visitors.

The Maui Hotel has recently been enlarged and completely renovated. While these inns are Maui's best, there are other hostilities besides. Maui intends to have "one big time" from Thursday to Saturday. A special water committee representing the Maui chamber of commerce guarantees that there will be no gouging of visitors by auto men, hack drivers, restaurateurs, promoters and others during fair week. Maui is upland and can afford to give all visitors a good time.

THREE SHIPS SUNK HAD CONTRABAND

The British steamer Strathmore, sunk off the eastern coast of the United States October 7 by a German submarine, on her voyage from New York for Bordeaux was loaded entirely with munitions.

Her manifest showed 1000 cases empty cartridges, 250 cases empty shells, 3712 barrels naphthalene, 1029 drums phenol, 4029 drums benzol, 23,758 sheets spelter, 31,776 ingots copper, 4300 bundles steel, 1008 cases brass rods, 305 cases brass, 18,295 bags copra, and forgings, nails and auto parts in quantity.

The cargo of the Christian Knudsen, sunk the same day, was 1,758,814 gallons gas oil.

That of the Dutch freighter Bloemerdijk was mainly wheat, 238,664 bushels, automobiles, motor-cycles, bicycles and miscellaneous supplies.

A FAVORITE RUB DOWN.
The golfer, the football player and the all round athlete know the value of Chamberlain's Pain Balm. It is just the thing for a rub down after a hard game. All soreness disappears like magic and sprains and swellings are cured in one-third less time than by any other treatment. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

BOARD MOVES FOR NAWILIWILI PORT

Harbor Commission Resolution
Calls On Congress To Make
the Kauai Bay Safe

The board of harbor commissioners, at its weekly meeting yesterday, adopted a resolution, which the secretary at a previous meeting had been directed to draft, urging upon the federal government the immediate necessity of an adequate appropriation by congress at the coming session for the construction of a breakwater, together with the necessary dredging, "to make Nawiliwili a port of safety."

The resolution set forth that "the Island of Kauai is at present without a harbor that vessels may enter and lie with safety while embarking and disembarking passengers, loading and discharging freight," and that Nawiliwili Bay "affords a most favorable opportunity for providing a safe harbor and distributing center to all important points of the island."

It also points out that United States engineers have made preliminary surveys and exhaustive reports on the subject, which are favorable to the construction of a breakwater at Nawiliwili.

It was directed that a copy of the resolution be sent to the United States engineer's office at Honolulu and on to the secretary of war at Washington.

CAMP AT VOLCANO PLEASES TRUSTEES

Members of Board Make Inspection
of Military Reserve On
Kilauea Slopes

(Mail Special to The Advertiser.)
HILLO, November 20.—Members of the board of trustees for the new military camp at the Volcano of Kilauea made a thorough inspection of the camp grounds and new buildings there last Friday, and have expressed their greatest satisfaction at the results of the work accomplished for the establishment of this splendid innovation. All the trustees were present except L. A. Thurston, who was represented by B. W. Miller. The others were Lieut. Charles Bonesteel, U. S. A.; Col. J. D. Easton, N. G. H.; Lieut. Col. J. T. Moir and Capt. A. C. Wheeler, N. G.

The trustees speak in the highest terms of the work of the contractors for the buildings, the Hilo Mercantile Company, the buildings being practically complete except for a few finishing touches. Capt. Robert Peck and the members of Company G, Second Infantry, U. S. A., took possession last week, and all were delighted with the accommodations.

Captain Peck and other army officers there are all enthusiastic over the site at the volcano, and state that the benefit to themselves and the men of this change has been of immense value. Some of the men have gained as much as fifteen pounds in the week they have been there.

Trustee Miller states that he will be very glad to receive any donations of old lawn furniture or comfortable chairs which he can have fixed up for the use of the men and officers at the camp. Also, any pictures or periodicals which can be donated will be much appreciated and will help to make it more homelike for the soldiers. He expects that there will be a continuous stream of army men to the volcano, now that the quarters have been completed and accepted.

NEW HOTEL OPENS IN SAN FRANCISCO

Word was received here yesterday by W. D. Merrill to the effect that the Hotel Whitcomb, San Francisco, had just been thrown open to the public. The hotel, which will be under the management of J. H. Van Horn, occupies the old city hall which was built following the fire and located at Eighth and Market Streets.

Nearly a half million dollars have been expended putting the building in shape. Elaborate furnishings and fixtures have been installed and the entire upper floor has been made into a spacious roof garden enclosed with plate glass and mirrors. This roof garden features alone cost \$50,000.

One of the new features inaugurated by the hotel is a white limousine automobile service. A number of these cars have been purchased at a cost of \$100,000. When a guest reserves accommodations he is met at the station or the ferry upon his arrival and conducted to one of the cars which bears his name on a neatly painted plate. He is then taken to the hotel in what to all intents and purposes is his own private car.

No extra charge is made for this service and the cars are provided for families as well as individual use.

SIX-DAY GRIND WON BY GOULLET AND GREUDA

BOSTON, November 11.—Riding in front of a field that was broken by injuries sustained in closing sprints, Alfred Goulet of Newark, N. J., and Al Greuda of Australia tonight won six-day bicycle race begun last Monday. Their total mileage for the ten-hour daily grind was 1350. Jacob Magin of Newark and Frank Correy of Australia were second.

BREAKWATER FUSS IS QUIETING DOWN

No Riots Or Clashes But Appeals
To The Courts Have Been
Put Under Way

HILLO, November 20.—Although Richard Deming, as vice-president of the American Surety Company of New York, holds the lease of Waialua quarry in his own name, he is at this time unable to continue work there, as men employed by Foreman Contractor George E. Marshall still hold possession and refused to be ejected when Mr. Deming's men started to go to work there.

J. Ishizu is the sub-contractor who formerly worked the quarry for Mr. Marshall and when the break came between the contractor and the Surety Company there was \$2800 owing to him. When Mr. Deming recently secured the lease of the quarry he paid Ishizu this money and instructed him to put his men to work as soon as he could.

Meanwhile Mr. Marshall had taken possession of the quarry site and put a sub-contractor of his own there, thus when Ishizu started in with his men there last Friday he found the quarry in possession of another contractor.

There was at no time any clash between the rival sub-contractors, neither was a cord of police put in action to prevent a battle. Ishizu appealed to Judge Charles F. Parsons, attorney for the American Surety Company, who advised him to wait until legal action could be taken to secure quiet possession of the quarry, and Ishizu is waiting.

It was stated on Monday that when Mr. Deming is ready to start work there in earnest he will institute legal proceedings to get possession of the quarry. Meanwhile his force of men at Waipio quarry are working without any hitch, getting out rock ready to be laid on the breakwater.

On Monday afternoon suit was filed in the Fourth circuit court by Mr. Deming to recover possession of the quarry. The suit is also in possession of the Marshalls. The papers received from the collector of customs at Honolulu on Sunday showed equally that the title to the tug in question is vested in Richard Deming.

This matter is expected to be settled this week, and then the matter of the Waialua quarry will be taken up for action in the court through an ejectment suit.

It was asserted yesterday that in all probability the charge against young George L. Marshall and his uncle, James Marshall, of malicious mischief or removing parts of the machinery of the breakwater will be dropped when the case comes before Judge Wise in the district court on Thursday.

BABY RUN OVER BY AUTO AND LEG BROKEN

Little three-year-old Taina Aoki, Japanese, was run over by an automobile driven by Eugene L. Conroy, superintendent of the American Cable Company, on Kalakaua Avenue last night. The child was taken to the Children's Hospital, where examination showed that she was suffering from a fracture of the upper left leg and minor scratches about her face and body. Her condition is not serious.

According to the police reports, Conroy was in no way to blame for the accident. Investigation showed that Mrs. Aoki was crossing Kalakaua driveway near Ohua Lane and the little child was trailing behind. When the mother reached the other side of the road she called to the child to hurry. Conroy, driving his machine, did not see the child until it darted in front of the machine in an effort to run to its mother. Conroy is credited with being a careful driver by the police. No charge has been lodged against him.

CAPTAIN FOSTER IS GRANTED A MONTH LEAVE OF ABSENCE

Capt. William R. Foster, harbor master, who has never missed a day at his post for twelve years, will leave for the mainland in the steamer Wilhelmina, sailing at ten o'clock next Wednesday morning. The captain has been granted a month sick leave and will visit several California resorts.

The dropkick by Tibbotts, in the Princeton-Tufts game, of forty-six yards is the record for this year.

COLBURN RESIGNS AS MANAGER OF KAPIOLANI ESTATE

Disagreement over matters of policy
concerning the management of the
Kapiolani Estate culminated in the
resignation of John F. Colburn, man-
ager, Tuesday. His resignation was ac-
cepted to take effect at once and yes-
terday he was engaged in the removal
of his personal effects from the office
of the estate in the Kapiolani build-
ing.

Mr. Colburn has been in charge of the estate since the death of Queen Kapiolani, relict of Kalakaua, eighteen years ago. He has also been guardian of Prince David's children since the latter's demise twelve years ago, having been named as such in the Prince's will.

The Kapiolani Estate was incorporated shortly after the Queen's death, as a close corporation, the original shareholders being her adopted children and blood-relatives. Mr. Colburn was himself a participant in the property under Queen Kapiolani's will.

He told The Advertiser yesterday that Kubio, Kapiolani's surviving adopted son, has recently acquired all of the outstanding stock in the Kapiolani Estate and is sole owner of the property. This being the case, and friction having developed between the owner of the estate and its manager, the latter's resignation was finally accepted. It is reported that the situation has been developing for over a year and that Mr. Colburn has repeatedly offered to resign.

The late manager of the Kapiolani Estate said yesterday that he has served without any definite salary for eighteen years; his sole emolument having been fees on the business transacted. In 1903 there was a settlement participated in by Prince David, Kubio and himself. Mr. Colburn as manager receiving a cash payment in remuneration of his services up to that time.

Possible Causes
Since 1903 there has been no further settlement and Mr. Colburn said he has not received one cent from the estate in the way of salary. Besides being manager of the Kapiolani Estate he has transacted much land business for individual stockholders.

The Prince and Mr. Colburn will meet today for a final settlement and it is expected that there will be an amicable adjustment. "If we cannot agree, then the courts will be called upon to fix my compensation," said Mr. Colburn. The particular work of Mr. Colburn, for which he has not been paid, he says, consists of having taken charge of the fourteen years' litigation between the estate and Mrs. Atherley, and the recent completion of evidence in the suit now pending between Kubio and the trustees of the Kapiolani Trust.

Questioned as to the current report that the future management of the property is to be in the hands of Robert W. Shingle, Mr. Colburn said, "Kubio has assured me that neither Mr. Shingle nor the Henry Waterhouse Trust Company are to have anything to do with the management of the property."

It is reported that no new manager will be appointed until Kubio has returned from Washington, after the close of the coming session of congress. Jesse P. Makinaka, secretary of the estate, may remain in charge until a successor to Mr. Colburn has been chosen.

Kubio is not a direct descendant of King Kalakaua and his Queen, Kapiolani, but was adopted by them and formally proclaimed Crown Prince and Heir Apparent by royal proclamation February 10, 1883.

BRITISH DECLARE LEATHER EMBARGO

The British government has requisitioned all leather, finished and unfinished, within the United Kingdom. The sale or removal of all leather suitable for making army supplies has been forbidden except under special permission of the "director of army contracts." This edict was issued September 30.

The dropkick by Tibbotts, in the Princeton-Tufts game, of forty-six yards is the record for this year.

SPORTS BIG MID-WINTER SWIMMING MEET WILL BE STAGED IN DECEMBER BY Y. M. C. A.

DUKE, LANGER, CUNHA, KRUGER AND KELI TO GO AFTER FIVE
HUNDRED YARD REGRY RECORD MADE IN SEP-
TEMBER—MANY FEATURES ON CARD

An all-featured program for a mid-winter swimming meet is being proposed and promoted by the Y. M. C. A. for the night of December 10. Duke Kahanamoku, together with George Cunha, Harold Kruger, and John Keli, the swimmers who made such a sensation in the meets held in the tank this past summer, have all been approached on the subject and are glad to get into their favorite game again.

The added feature would be Lady Langer, who, since the big swimming arrival of this summer, has been resident in Honolulu and it is quite possible that Langer will join the Association within the next few days and enter the meet.

The meet is in the hands of the swimming committee at the Association of which Harold Castle is chairman. The committee has already chosen the date of December 10, it being a Saturday night and the most agreeable night to the swimmers who have been approached on the subject.

The renewed interest in swimming came on the heels of an announcement from the Mainland that the records established by the Y. M. C. A. Relay team in the 400 and 500 yards relay, officially recognized by the A. A. U. and the record taken away from the Illinois Athletic Club. This was something hoped for, but not certain in the minds of the local swimmers and their friends, but when the news came, another meet was immediately put in motion.

Records May Go in 500
The feature race planned will be the 500. It is hoped that this great swimmer is being taken into account, and this plus the fact that the very best possible talent at timing and officiating is secured, has convinced the headquarters of the body that the records ought to stand. At least the boys approached are enthusiastic and the fans would like to see this great aggregation combine for the race.

ST. LOUIS BREAKS EVEN WITH JAPANESE

Wins Half of Games Played With
Universities; Royal Welcome
Accorded Team

After a seven weeks' absence the St. Louis baseball players returned yesterday morning on the Shinyo Maru from the Orient, where they have been playing a series of games with Japanese university teams. In all, the St. Louis team played twelve games, winning six, losing five and playing to a tie in one, after an eleven inning battle, with the Keio university team.

St. Louis won two out of the three games each with the Waseda and Meiji university nines. They were beaten by Keio, the strongest team in Japan, and won two out of the three games played with that aggregation.

Andrew L. Bushnell, who was a member of the St. Louis team, states that he played very royally received, not only by the universities, but by the people in every city that they played. He said that from ten to fifteen thousand people witnessed every Saturday and Sunday contest. The youngsters of Japan are very enthusiastic over baseball and are to be found on every vacant lot, in the alleys and on the streets playing not only the national, but international game. It rained a great deal during their stay in Japan, and many of the games were played with the thermometer around forty-five degrees. The players encountered snow.

A trip was proposed to Manila, but through some misunderstanding arrangements could not be made with the Manila officials. All the men, who went on the trip, were greatly impressed with what they saw, but little old Honolulu, looked pretty good to them yesterday morning.

The players who made the trip are as follows: A. Bushnell, S. Maddox, R. Zuber, F. Dumshott, R. Crumpler, W. Janssen, J. Hoke, A. Amos, M. Flizer and N. Peterson. J. Arcia acted as manager and was accompanied by B. T. Arcia.

INDOOR BALL TEAMS TO PLAY FOR ISLAND TITLE

The four fastest Senior and Junior and the six fastest Midget indoor baseball teams in the Hawaiian Islands start a series of games which will be for, and will include, the 1917 championships of these three divisions.

In the Senior division as the teams shape up Palama looks best in figures but then both the Kaula and the Buleia teams have increased their team strength a great deal while the Kalili reorganized will be the dark horse of the league.

In the Junior league there is nothing to choose between any of the teams entered and all seem to have an even chance. The fast H. A. C. team looks to have the edge in the Midget division and it will take some playing on the part of the other five teams to keep them from annexing the championship.

CHANGES ARE MADE IN OLD BASKETBALL RULES

A. A. U. Adopts New Measures To
Simplify Great Game

The new A. A. U. basketball rules show a number of improvements. While only a few changes have been made in basketball itself, the rules have been greatly simplified, and, as a whole, better than last year's. They are the most important changes.

Players must stay in their own half of the center circle, but do not necessarily have to face their basket, as they did last year.

In jumping for the ball, a player may tap the ball and then catch it. If the ball touches the floor without being tapped, it must be thrown up again by the referee.

Running up the wall under the basket is prohibited this year.

The umpire is to assist the referee in out-of-bound decisions only when requested by the referee.

The new rules make a plea for standardization, requesting that local interpretation be avoided. To quote: "Agreements not to live up to certain parts of the rules usually prove unsatisfactory, and the rules do not provide for such agreements, except in regard to ground rules. For instance, the personal foul rule, which has been of tremendous value to the game, has been set aside by the teams mostly in order of it, yet this rule is not open to such action and the officials of a game should refuse to set it aside. Stick to the rules. It is better sportsmanship, produces better basketball and gives more satisfactory results in every way."

MAJOR LEAGUE PLAYERS MUST SIGN NEW CONTRACTS

New contracts will be presented to American and National league baseball players when the season for signing comes, according to B. B. Johnson, president of the American league. Johnson also said these new contracts will not be the handiwork of David L. Fuiz, president of the players' fraternity, attorneys for the major leagues being the only ones engaged in the drafting of the contracts.

President Johnson denied today that the clause in regard to forfeiture of pay by injured players was incorporated in the present contracts, although he said that those now in force were not satisfactory to the two leagues.

AMERICANS FLOCK OVER LINE FOR FALL RACES

SAN DIEGO, November 11.—The fall and winter racing season at Tia Juana, Mexico, was inaugurated this afternoon with a large crowd in attendance. Large delegations were present from Los Angeles, San Francisco and Reno, Nevada. The pick of the horses from the recent meet in Reno and many from the East will be stabled at Tia Juana for the winter.

Six races will be run each day except Monday during the season, with handicaps scheduled for holidays.

Auto Lights and White Football Beat Darkness

STILLWATER, Oklahoma, November 11.—Headlights from more than a hundred automobiles illuminated the gridiron during the last two periods of the football game here today between Oklahoma A. and M. and Central State Normal and the pigskin oval was painted white to enable the men to see the game.

Two storms delayed the game until it seemed too dark to continue the contest. The automobiles then entered the field, the lights were put into position and with the ball painted white the A. and M. team defeated the visitors, 34 to 6.

CALIFORNIA BOY BREAKS MOTORCYCLE RECORD

Don Johns, of Pasadena, broke the world's motorcycle record for five miles on a circular dirt track at Phoenix, Arizona, on November 13. His time was 3 minutes and 58 seconds.
